My dear Vedavyasacharya,

I am desired to enclose a copy of a letter from the Commissioner of Police, Civil & Military Station, Bangalore, to the Superintendent of Police, Bangalore City, No 1458/G/43, dated the 12th June 1943 Since the military authorities are anxious that the road should be widened in order to avoid accidents and that the matter should be expedited, the Hon'ble the Resident would be grateful if the Government of Mysore could see their way to take necessary action in the matter as early as possible

Yours sincerely

Letter No 1458/G/43, dated 12th June 1943 from the Commissioner of Police, Civil and Military Station, Bangalore, to the Superintendent of Police, Bangalore City

--- 0 ---

The Commander, 105 L of C Area, has asked me to take up the question of a speed limit on Miller Road between Ali Asker Road and the Railway bridge He points out that there is much over-speeding in this Section and that the Cunningham Road crossing, and the bend in the road opposite Dobspet village are danger points There is considerable traffic on Cunningham Road now-a-days, and the bend lower down makes something like a blind corner, added to which there are constantly children and animals straying on the road

I would add my own request to that of the Area Commander, as I have always felt that this road is dangerous

The best solution would be to enlarge the Cunningham Road junction by cutting back the compound walls slightly on the North-East and South-West corners, and to place there a fairly large central Island which would automatically reduce speed and prevent collisions, and to combine with this a 20 m p h speed limit between the junction and corner of the compound wall north of the junction on the East side of the road, where it abuts on Miller Lank

If no Traffic Island is possible, then the speed limit should be enforced between the last named point, and a point about 100 yards South of the Cunningham Road junction

The chief difficulty in regard to a speed limit will be the illumination of the speed limit signs at night I do not know if this could be arranged This road is so busy now, and there is so much military traffic by night as well as by day, that illumination seems essential

I would request your co-operation to get something done in this matter as early as possible I shall give every help so far as the Civil & Military Station side of the road is concerned, but the road itself being in City limits the matter is necessarily one in which you must initiate action
